Project Design Phase-1

Solution Architecture

Date	4-11-2023
Team ID	NM2023TMID11313
Project Name	Vaccine Tracking-transparent

Solution Architecture:

- Choose a suitable blockchain platform, such as Ethereum, Hyperledger Fabric, or a private blockchain, based on scalability, privacy, and regulatory requirements.
- Set up a blockchain network with multiple nodes, including vaccine manufacturers, distributors, healthcare providers, and regulatory agencies.
- Establish a governance model for decision-making within the blockchain network.
